**UNIVERSITY**  
*A Private University Promoting Public Service*

# JGU's Progress Against SDGs: 2022

## **SDG 1: NO POVERTY**

END POVERTY IN ALL ITS FORMS EVERYWHERE

JGU's scholarships serve as an important tool to ensure quality higher education accessible. This report portrays JGU's commitment and efforts to provide affordable global education in India through financial assistance to students. The university offers all economic and social classes equal opportunity for employment in the institution. The university encourages persons from the neighbouring villages to apply for jobs within the campus which include unskilled, semi-skilled and skilled jobs. Women in general are encouraged to apply and have been provided employment within the institution. The university has taken care of the children by providing them the crèche facility as well. The university has adopted the norms as per the government of India and the International Labour Organization (ILO) guidelines in recruitment processes and welfare measures provided to its personnel for all cadres. These efforts will indeed benefit in creation of employment and work generation which will be a major step towards poverty alleviation.

## **SDG 2: ZERO HUNGER**

END HUNGER, ACHIEVE FOOD SECURITY & IMPROVED NUTRITION AND PROMOTE SUSTAINABLE AGRICULTURE

The university has taken steps for providing sustainable, nutritious and affordable food choices on campus by facilitating food production and introducing measures to reduce food wastage on campus itself. We emphasise balanced menus that include a variety of fruits, vegetables, whole grains, lean proteins, and plant-based options. Our chefs and nutritionists work together to ensure that everyone has access to wholesome and flavorful meals. The university has an association with a company duly approved by the Haryana State Pollution Control Board to collect the waste food and use it as per the guiding principles of the Board. JGU is supporting farming activities outside the campus within a radius of 2 kms and offering support to the farmers in terms of equipment, technical training programmes, etc. Being a not-for-profit entity, the university has been conducting philanthropic activities as its CSR activities which includes various community activities with the local villagers around the university campus.

## **SDG 3: GOOD HEALTH & WELL-BEING**

---

### **ENSURE HEALTHY LIVES & PROMOTE WELL-BEING FOR ALL AT ALL AGES**

The university provides all within the campus with 24x7 medical facilities and access to ambulances at all times. Basic health and mental well-being of any human being is of utmost priority for the university. The university has a no-smoking campus which helps promote the health and sanity of the sustainable environment of the university campus. The aim of the university is to provide access to affordable health and wellbeing services on campus by conducting well-being programmes to reduce incidence of communicable diseases and promote mental health. The Health Centre has an in-house laboratory setup, allowing for convenient and efficient in-house, free testing services to students, faculty, staff, workers and their family members. This ensures quick and accurate diagnosis, enabling prompt medical intervention when required.

## **SDG 4: QUALITY EDUCATION**

---

### **ENSURE INCLUSIVE & EQUITABLE QUALITY EDUCATION AND PROMOTE LIFELONG LEARNING OPPORTUNITIES FOR ALL**

The university provides world-class education. The financial assistance programmes of the university has helped it draw students from all sections of the society. The university has brought faculty from different countries and regions around the world, has drawn students from different countries and has collaborated with several hundred leading institutions around the world to bring international experiences to the Indian higher education system. The university aims at improving inclusive education process on a periodic basis by creating its own benchmarks and challenging its own achievements. The university also endeavours to support vulnerable and disadvantaged people to access and participate fully in the university, including differently abled persons, indigenous peoples, and people experiencing financial difficulty. The university is also conducting various programmes including scholarships and financial assistance schemes to enhance literacy and education in communities and schools in the university's local area and beyond, which will indeed promote and encourage inclusivity in learning.

## **SDG 5: GENDER EQUALITY**

---

### **ACHIEVE GENDER EQUALITY & EMPOWER ALL WOMEN AND GIRLS**

The university is in continuous engagement with the local community women to promote female education and empowerment through employment. The university encourages promotion of women in the organisation based on their merit and performance. This enables the university to ensure the implementation of gender equity strategies, including those for improving the representation of women in the university leadership positions and senior academic roles in the workplace environment of the university. The university also provides child-care facilities on campus and promotes workplace flexibility. JGU has been able to attract outstanding women academics, scholars and researchers as faculty members spread across all schools. Women are also well represented in leadership roles at JGU. As of 2022, this is evident in the number of women across the university in a range of functions – over 46 percent of our students and 49 percent faculty are women, and women hold 40 percent of leadership roles within the faculty, and 29 percent in non-teaching leadership roles. This has resulted through a conscious effort to recruit more women students and staff by JGU's admissions and outreach team, and human resources team. At JGU, we

record women's application rate, acceptance rate and degree completion rate. Our undergraduate student population consists of 48.7% female and 51.3% male students. Our postgraduate student population consists of 42.1% female and 57.9% male students. In the year 2023, 2049 out of 2076 (over 98%) students from all graduating batches successfully completed their degrees.

## **SDG 6: CLEAN WATER & SANITATION**

---

**ENSURE AVAILABILITY & SUSTAINABLE MANAGEMENT OF WATER AND SANITATION FOR ALL**

The university ensures provision of free drinking water for students, staff and visitors. It also aims at developing management and guardianship plans for on-campus and surrounding waterways and on-campus biodiversity and ecosystems. The university has setup Reverse Osmosis (RO) plants on campus. This ensures that the drinking water goes through a thorough sanitation process for any consumption on campus. The university's Sewage Treatment Plants are also provided with ultraviolet and ultrafiltration facility so that the treated water can be used for cooling towers. This ensures sustainable management of water and sanitation for all on campus.

## **SDG 7: AFFORDABLE & CLEAN ENERGY**

---

**ENSURE ACCESS TO AFFORDABLE, RELIABLE, SUSTAINABLE AND MODERN ENERGY FOR ALL**

The university endeavours to decrease the dependency on conventional sources to zero and be self-sufficient on power generation versus utilisation. The university has created a sustainable model with solar power generation by contributing excess power to the grid. The university has aimed at instituting zero-net emission policies and investing in on-campus renewable energy production by developing long term resource efficiency and management plans.

## **SDG 8: DECENT WORK & ECONOMIC GROWTH**

---

**PROMOTE SUSTAINED, INCLUSIVE & SUSTAINABLE ECONOMIC GROWTH, FULL AND PRODUCTIVE EMPLOYMENT AND DECENT WORK FOR ALL**

The university strives to nurture local employment by identifying local talent and nurture on national and international level, in areas of academics, leadership, cultural activities and sports. The university aims to align employment, training and regulation of policies to be consistent with its commitment to promoting equity and access. The university also endeavours to provide appropriately positioned and supported scholarship and financial assistance schemes for students in need which indeed supports creativity and innovation through a culture of acceptable risk-taking, providing the appropriate space and process for ideas to flourish. If any employee feels he or she is being subjected to discrimination, harassment, bullying or victimization, he or she can raise the same with the HR department or use the existing grievance redressal mechanisms like Anti-Discrimination Committee and Committee on Gender Sensitisation Against Sexual Harassment (COGSASH).

## **SDG 9: INDUSTRY, INNOVATION & INFRASTRUCTURE**

---

### **BUILD RESILIENT INFRASTRUCTURE, PROMOTE INCLUSIVE AND SUSTAINABLE INDUSTRIALIZATION AND FOSTER INNOVATION**

The university has taken steps to ensure sustainable consumption and production patterns. The university is committed to building sustainable and resilient infrastructure in terms of the campus building needs that supports wellbeing. The university has taken measures for water conservation and rainwater harvesting to reduce dependence on groundwater. The university has also set up 3 Research Institutes and over 60 interdisciplinary research centres to engage in research that has a broad and global impact.

## **SDG 10: REDUCE INEQUALITY**

---

### **REDUCE INEQUALITY WITHIN & AMONG COUNTRIES**

The university provides a supportive, inclusive and safe working and learning environment for people from financially and socially disadvantaged backgrounds, people from rural and regional areas, differently abled persons, people of diverse genders and sexualities and people from diverse cultural and faith communities. JGU awards Merit-cum-Means Scholarships (MCM) every year to meritorious students, including but not limited to those from underrepresented groups such as financially weaker backgrounds and women.

## **SDG 11: SUSTAINABLE CITIES & COMMUNITIES**

---

### **MAKE CITIES & HUMAN SETTLEMENTS INCLUSIVE, SAFE, RESILIENT AND SUSTAINABLE**

The university has been taking concrete efforts in implementing goals for a sustainable institution and to further lead the movement in its surrounding areas, i.e. the villages and communities. These efforts of sustainability by the university are not only taken in terms of environment but also for social development.

## **SDG 12: RESPONSIBLE CONSUMPTION & PRODUCTION**

---

### **ENSURE SUSTAINABLE CONSUMPTION & PRODUCTION PATTERNS**

The university aims at production or replenishment of non-renewable resources on a day to day basis by adopting responsible and judicious techniques of sustainability. The university has a robust waste management process in place to ensure responsible consumption and production. This includes reusing the minimum construction waste generated from the construction activities for making sub-base in the construction of the road network in and around the university, and also using green waste for making manure through the process of vermicomposting.

## **SDG 13: CLIMATE ACTION**

---

### **TAKE URGENT ACTION TO COMBAT CLIMATE CHANGE & ITS IMPACTS**

The university has ensured the development of flora and fauna, and ensured that efforts are made to keep the climate of the university and its surrounding areas habitable. The university has also set up the Jindal School of Environment and Sustainability to ensure that it creates innovation and young leadership to combat climate change and its impact. It also provides interdisciplinary education across other schools to ensure that there is adequate awareness on this important subject across the entire university.

## **SDG 14: LIFE BELOW WATER**

---

### **CONSERVE AND SUSTAINABLY USE THE OCEANS, SEAS AND MARINE RESOURCES FOR SUSTAINABLE DEVELOPMENT.**

The university follows environment friendly processes which do not have a negative impact on any water bodies or underground water systems. The university has also constructed a rainwater harvesting system in the campus to ensure that they do not impact water bodies for consumption in any format. Therefore, the university has demonstrated its continued commitment to protecting life below water.

## **SDG 15: LIFE & LAND**

---

### **PROTECT, RESTORE AND PROMOTE SUSTAINABLE USE OF TERRESTRIAL ECOSYSTEMS, SUSTAINABLY MANAGE FORESTS, COMBAT DESERTIFICATION, AND HALT AND REVERSE LAND DEGRADATION AND HALT BIODIVERSITY LOSS.**

The university contributes to the goal of 'life on land' by having more than 55% of its campus area dedicated to flora and fauna. This includes a vast expanse of over nearly 8,000 trees and over 1,30,000 shrubs. With 78 species of trees and shrubs across the campus, the university has created a truly diverse and green campus.

## **SDG 16: PEACE, JUSTICE & STRONG INSTITUTION**

---

### **PROMOTE PEACEFUL & INCLUSIVE SOCIETIES FOR SUSTAINABLE DEVELOPMENT, PROVIDE ACCESS TO JUSTICE FOR ALL AND BUILD EFFECTIVE, ACCOUNTABLE AND INCLUSIVE INSTITUTIONS AT ALL LEVELS**

JGU's mission is enabled by three key factors that were ingrained in JGU's founding vision – academic freedom, institutional autonomy, and financial independence. Over the past 13 years, these enablers have given us the opportunity to commit to key institutional objectives – public service, pluralism, innovation, diversity, and inclusivity. The university on a regular basis arranges for free legal aid camps in which the university endeavours to provide free legal assistance and services to the underprivileged and the disadvantaged section of the society. This aids to ensure that the communities in the neighbouring villages have access to justice through accessible legal resources. The university aims at strengthening the processes

involving all stakeholders and the students in the governance of the institution. JGU encourages student participation in campus governance. For this purpose, the university and students have set up democratically elected student (union) councils across all its 12 schools. The student council oversees academic, professional and personal development of the students individually and as a group, in order to achieve overall excellence.

## **SDG 17: PARTNERSHIP FOR THE GOALS**

---

### **STRENGTHEN THE MEANS OF IMPLEMENTATION & REVITALIZE THE GLOBAL PARTNERSHIP FOR SUSTAINABLE DEVELOPMENT**

The university nurtures national and international partnerships on various social, legal and environment issues. The university is determined to build strategies and culture that openly supports in developing, maintaining and enhancing partnerships both internally and externally. The university ensures partnerships of global impact. JGU has collaborated with 350+ partner institutions across 65+ countries and regions, and also engages meaningfully with external stakeholders such as the government, global academic networks, think tanks and regulators to ensure positive impact. The university values all its relationships and partnerships with all its internal as well as external stakeholders. The JGU community actively engages in producing policy papers, policy briefs and relevant documents for the use of and consultation by the parliamentarians, government departments, higher education regulatory bodies, international organisations, higher education institutions, policy makers in India and abroad and other stakeholders. In September 2022, JGU held its first Bi-annual CSR Conclave on SDGs. Sustainable Development Goals are an inextricable part of the CSR ventures of all major organisations. JGU believes that in light of the looming climate crisis, the only way to safeguard our future is to accelerate our efforts towards achieving SDGs with haste, and this conclave is a way to give our students an exceptional opportunity to broaden the horizons of their thought and professional ambitions.

## Research Initiatives:

**Research Publications:** O.P. Jindal Global University, has initiated a comprehensive and progressive research agenda aimed at addressing critical challenges related to SGDS. The following are research publications initiatives to minimize or prevent damage to aquatic **ecosystems**

Sr. No.	Title	Authors	Year	Scopus Source title	Sustainable Development Goals (2023)
1	Food supply chain in the era of Industry 4.0: blockchain technology implementation opportunities and impediments from the perspective of people, process, performance, and technology	Kayikci, Y.   Subramanian, N.   Dora, M.   Bhatia, M.S.	2022	Production Planning and Control	SDG 2   SDG 9
2	Past, present, and future of sustainable finance: insights from big data analytics through machine learning of scholarly research	Kumar, S.   Sharma, D.   Rao, S.   Lim, W.M.   Mangla, S.K.	2022	Annals of Operations Research	SDG 4   SDG 9   SDG 12   SDG 13
3	A decision-making framework for Industry 4.0 technology implementation: The case of FinTech and sustainable supply chain finance for SMEs	Soni, G.   Kumar, S.   Mahto, R.V.   Mangla, S.K.   Mittal, M.L.   Lim, W.M.	2022	Technological Forecasting and Social Change	SDG 8   SDG 9   SDG 12
4	The effects of trust on behavioral intention and use behavior within e-government contexts	Hooda, A.   Gupta, P.   Jeyaraj, A.   Giannakis, M.   Dwivedi, Y.K.	2022	International Journal of Information Management	SDG 16
5	Overcoming barriers to cross-sector collaboration in circular supply chain management: a multi-method approach	Luthra, S.   Sharma, M.   Kumar, A.   Joshi, S.   Collins, E.   Mangla, S.	2022	Transportation Research Part E: Logistics and Transportation Review	SDG 9   SDG 12
6	A conceptual framework for blockchain-based sustainable supply chain and evaluating implementation barriers: A case of the tea supply chain	Mangla, S.K.   Kazançoğlu, Y.   Yıldızbaşı, A.   Öztürk, C.   Çalık, A.	2022	Business Strategy and the Environment	SDG 1   SDG 9   SDG 10   SDG 12
7	Way off the mark? Open innovation failures: Decoding what really matters to chart the future course of action	Chaudhary, S.   Kaur, P.   Talwar, S.   Islam, N.   Dhir, A.	2022	Journal of Business Research	SDG 9
8	Critical Success Factors of Industry 4.0 in Automotive Manufacturing Industry	Bhatia, M.S.   Kumar, S.	2022	IEEE Transactions on Engineering Management	SDG 9

9	Integrating the circular economy and industry 4.0 for sustainable development: Implications for responsible footwear production in a big data-driven world	Dwivedi, A.   Moktadir, M.A.   Chiappetta Jabbour, C.J.   de Carvalho, D.E.	2022	Technological Forecasting and Social Change	SDG 9   SDG 12
10	Exploring the application of Industry 4.0 technologies in the agricultural food supply chain: A systematic literature review	Yadav, V.S.   Singh, A.R.   Raut, R.D.   Mangla, S.K.   Luthra, S.   Kumar, A.	2022	Computers and Industrial Engineering	SDG 9
11	Role of flexibility, agility and responsiveness for sustainable supply chain resilience during COVID-19	Kazancoglu, I.   Ozbiltekin-Pala, M.   Kumar Mangla, S.   Kazancoglu, Y.   Jabeen, F.	2022	Journal of Cleaner Production	SDG 3   SDG 9   SDG 12
12	Socioeconomic impact due to COVID-19: An empirical assessment	Gupta, V.   Santosh, K.C.   Arora, R.   Ciano, T.   Kalid, K.S.   Mohan, S.	2022	Information Processing and Management	SDG 3
13	Exploring the green waste management problem in food supply chains: A circular economy context	Kharola, S.   Ram, M.   Kumar Mangla, S.   Goyal, N.   Nautiyal, O.P.   Pant, D.   Kazancoglu, Y.	2022	Journal of Cleaner Production	SDG 12
14	An integrated literature review on sustainable food supply chains: Exploring research themes and future directions	Kumar, A.   Mangla, S.K.   Kumar, P.	2022	Science of the Total Environment	SDG 12
15	Examining continuance intention in business schools with digital classroom methods during COVID-19: a comparative study of India and Italy	Chauhan, S.   Goyal, S.   Bhardwaj, A.K.   Sergi, B.S.	2022	Behaviour and Information Technology	SDG 3
16	A Green Dual-Channel Closed-Loop Supply Chain Network Design Model	Kazancoglu, Y.   Yuksel, D.   Sezer, M.D.   Mangla, S.K.   Hua, L.	2022	Journal of Cleaner Production	SDG 9   SDG 12   SDG 13
17	Modeling the emergency health-care supply chains: responding to the COVID-19 pandemic	Hossain, M.K.   Thakur, V.   Mangla, S.K.	2022	Journal of Business and Industrial Marketing	SDG 3
18	Revisiting the financial market interdependence during COVID-19 times: a study of green bonds, cryptocurrency, commodities and other financial markets	Rao, A.   Gupta, M.   Sharma, G.D.   Mahendru, M.   Agrawal, A.	2022	International Journal of Managerial Finance	SDG 3
19	Resources melioration and the circular economy: Sustainability potentials for mineral, mining and extraction sector in emerging economies	Luthra, S.   Mangla, S.K.   Sarkis, J.   Tseng, M.-L.	2022	Resources Policy	SDG 7

20	Social capital in agribusiness: an exploratory investigation from a supply chain perspective during the COVID-19 crisis	Lang, L.D.   Behl, A.   Dong, N.T.   Thu, N.H.   Dewani, P.P.	2022	International Journal of Logistics Management	SDG 2   SDG 3
21	Impact of information technology and knowledge sharing on circular food supply chains for green business growth	Ersoy, P.   Börühan, G.   Kumar Mangla, S.   Hormazabal, J.H.   Kazancoglu, Y.   Lafci, Ç.	2022	Business Strategy and the Environment	SDG 2   SDG 12
22	Psychological resilience and business survival chances: A study of small firms in the USA during COVID-19	Chhatwani, M.   Mishra, S.K.   Varma, A.   Rai, H.	2022	Journal of Business Research	SDG 3
23	The Impact of IoT on the Performance of Vaccine Supply Chain Distribution in the COVID-19 Context	Kumar, S.   Raut, R.D.   Priyadarshinee, P.   Mangla, S.K.   Awan, U.   Narkhede, B.E.	2022	IEEE Transactions on Engineering Management	SDG 3
24	Performance assessment of circular driven sustainable agri-food supply chain towards achieving sustainable consumption and production	Kumar, M.   Sharma, M.   Raut, R.D.   Mangla, S.K.   Choubey, V.K.	2022	Journal of Cleaner Production	SDG 2   SDG 8   SDG 9   SDG 12
25	Barriers for adoption of Industry 4.0 in sustainable food supply chain: a circular economy perspective	Kumar, A.   Mangla, S.K.   Kumar, P.	2022	International Journal of Productivity and Performance Management	SDG 2   SDG 8   SDG 9   SDG 12
26	Integration of green and lean practices for sustainable business management	Singh, R.K.   Kumar Mangla, S.   Bhatia, M.S.   Luthra, S.	2022	Business Strategy and the Environment	SDG 9
27	Resilience and complexity measurement for energy efficient global supply chains in disruptive events	Ekinci, E.   Mangla, S.K.   Kazancoglu, Y.   Sarma, P.R.S.   Sezer, M.D.   Ozbiltekin-Pala, M.	2022	Technological Forecasting and Social Change	SDG 10
28	Data-driven optimal dynamic pricing strategy for reducing perishable food waste at retailers	Kayikci, Y.   Demir, S.   Mangla, S.K.   Subramanian, N.   Koc, B.	2022	Journal of Cleaner Production	SDG 9   SDG 12
29	Barriers to organic waste management in a circular economy	Kharola, S.   Ram, M.   Goyal, N.   Mangla, S.K.   Nautiyal, O.P.   Rawat, A.   Kazancoglu, Y.   Pant, D.	2022	Journal of Cleaner Production	SDG 11   SDG 12
30	Advanced data integration in banking, financial, and insurance software in the age of COVID-19	Maiti, M.   Vuković, D.   Mukherjee, A.	2022	Software - Practice and Experience	SDG 3   SDG 8

		Paikarao, P.D.   Yadav, J.K.			
31	Smart circular supply chains to achieving SDGs for post-pandemic preparedness	Kayikci, Y.   Kazancoglu, Y.   Lafci, C.   Gozacan-Chase, N.   Mangla, S.K.	2022	Journal of Enterprise Information Management	SDG 3   SDG 8   SDG 9   SDG 12
32	Dissolving the Dichotomies Between Online and Campus-Based Teaching: a Collective Response to The Manifesto for Teaching Online (Bayne et al. 2020)	MacKenzie, A.   Bacalja, A.   Annamali, D.   Panaretou, A.   Girme, P.   Cutajar, M.   Abegglen, S.   Evens, M.   Neuhaus, F.   Wilson, K.   Psarikidou, K.   Koole, M.   Hrastinski, S.   Sturm, S.   Adachi, C.   Schnaider, K.   Bozkurt, A.   Rapanta, C.   Themelis, C.   Thestrup, K.   Gislev, T.   Örtegren, A.   Costello, E.   Dishon, G.   Hoehsmann, M.   Bucio, J.   Vadillo, G.   Sánchez-Mendiola, M.   Goetz, G.   Gusso, H.L.   Arantes, J.A.   Kishore, P.   Lodahl, M.   Suoranta, J.   Markauskaite, L.   Mörtzell, S.   O'Reilly, T.   Reed, J.   Bhatt, I.   Brown, C.   MacCallum, K.   Ackermann, C.   Alexander, C.   Payne, A.L.   Bennett, R.   Stone, C.   Collier, A.   Lohnes Watulak, S.   Jandrić, P.   Peters, M.   Gourlay, L.	2022	Postdigital Science and Education	SDG 4
33	Effect of social capital on agribusiness diversification intention in the emerging market	Lang, L.D.   Behl, A.   Dong, N.T.   Temouri, Y.   Thu, N.H.	2022	Journal of Intellectual Capital	SDG 2

34	Antecedents for circular bioeconomy practices towards sustainability of supply chain	Moktadir, M.A.   Dwivedi, A.   Rahman, T.	2022	Journal of Cleaner Production	SDG 8   SDG 9   SDG 12
35	Impact of psychological factors, university environment and sustainable behaviour on teachers' intention to incorporate inclusive education in higher education	Bodhi, R.   Singh, T.   Joshi, Y.   Sangroya, D.	2022	International Journal of Educational Management	SDG 4   SDG 10   SDG 12
36	Waste to resource: Applicability of fly ash as landfill geoliner to control ground water pollution	Chowdhury, A.   Naz, A.   Chowdhury, A.	2022	Materials Today: Proceedings	SDG 3   SDG 6   SDG 11   SDG 12
37	The adoption of artificial intelligence powered workforce management for effective revenue growth of micro, small, and medium scale enterprises (MSMEs)	Kumar, M.   Raut, R.D.   Mangla, S.K.   Ferraris, A.   Choubey, V.K.	2022	Production Planning and Control	SDG 8   SDG 9
38	Immediate return in circular economy: Business to consumer product return information sharing framework to support sustainable manufacturing in small and medium enterprises	Kamal, M.M.   Mamat, R.   Mangla, S.K.   Kumar, P.   Despoudi, S.   Dora, M.   Tjahjono, B.	2022	Journal of Business Research	SDG 9   SDG 12
39	Improved COVID-19 detection with chest x-ray images using deep learning	Gupta, V.   Jain, N.   Sachdeva, J.   Gupta, M.   Mohan, S.   Bajuri, M.Y.   Ahmadian, A.	2022	Multimedia Tools and Applications	SDG 3
40	Pollutant extraction from water and soil using Montmorillonite clay-polymer composite: A rapid review	Naz, A.   Chowdhury, A.	2022	Materials Today: Proceedings	SDG 6
41	Urban greenery for air pollution control: a meta-analysis of current practice, progress, and challenges	Chaudhuri, S.   Kumar, A.	2022	Environmental Monitoring and Assessment	SDG 8   SDG 11   SDG 12   SDG 13   SDG 16
42	Material convergence issue in the pharmaceutical supply chain during a disease outbreak	Patil, A.   Madaan, J.   Shardeo, V.   Charan, P.   Dwivedi, A.	2022	International Journal of Logistics Management	SDG 3   SDG 9
43	How mandatory corporate social responsibility can help governments with development goals	Sodhi, M.S.   Kumar, C.   Ganguly, A.	2022	Business Strategy and Development	SDG 12
44	Assessing risk of supply chain disruption due to COVID-19 with fuzzy VIKORSort	Khan, J.   Ishizaka, A.   Mangla, S.K.	2022	Annals of Operations Research	SDG 3
45	Addressing water scarcity in developing country contexts: a socio-cultural approach	Emile, R.   Clammer, J.R.   Jayaswal, P.   Sharma, P.	2022	Humanities and Social Sciences Communications	SDG 6

46	Impact of soft TQM practices on employee work role performance: role of innovative work behaviour and initiative climate	Vihari, N.S.   Yadav, M.   Panda, T.K.	2022	TQM Journal	SDG 9
47	Electric vehicle charging infrastructure: positioning in India	Kore, H.H.   Koul, S.	2022	Management of Environmental Quality: An International Journal	SDG 7
48	Environment-Social-Governance Disclosures nexus between Financial Performance: A Sustainable Value Chain Approach	Saini, N.   Antil, A.   Gunasekaran, A.   Malik, K.   Balakumar, S.	2022	Resources, Conservation and Recycling	SDG 8   SDG 9   SDG 12
49	Role of perceived corporate social responsibility in the nexus of perceived cause-related marketing and repurchase intention in emerging markets	Le, T.T.   Tiwari, A.K.   Behl, A.   Pereira, V.	2022	Management Decision	SDG 12
50	Decision support framework for integrating triple bottom line (TBL) sustainability in agriculture supply chain	Singh, S.   Srivastava, S.K.	2022	Sustainability Accounting, Management and Policy Journal	SDG 2   SDG 9   SDG 12   SDG 16
51	Mortgage delinquency during COVID-19: do financial literacy and personality traits matter?	Chhatwani, M.	2022	International Journal of Bank Marketing	SDG 8
52	Arsenic removal technologies for middle- and low-income countries to achieve the SDG-3 and SDG-6 targets: A review	Yadav, A.K.   Yadav, H.K.   Naz, A.   Koul, M.   Chowdhury, A.   Shekhar, S.	2022	Environmental Advances	SDG 3   SDG 6
53	An innovation resistance theory perspective on home service applications: The moderating role of country context	Kumar, P.   Chauhan, S.   Jaiswal, M.P.	2022	International Journal of Consumer Studies	SDG 9   SDG 10
54	Current Overviews on COVID-19 Management Strategies	Rai, P.K.   Mueed, Z.   Chowdhury, A.   Deval, R.   Kumar, D.   Kamal, M.A.   Negi, Y.S.   Pareek, S.   Sharma, H.   Poddar, N.K.	2022	Current Pharmaceutical Biotechnology	SDG 3
55	Exploring female frontline health workers' role and capacities in COVID-19 response in India	Krishnan, S.	2022	International Journal of Disaster Risk Reduction	SDG 3   SDG 5   SDG 10   SDG 11
56	Analysing appropriateness in appropriate technology for achieving sustainability: A multi-sectorial examination in a developing economy	Patnaik, J.   Tarei, P.K.	2022	Journal of Cleaner Production	SDG 7   SDG 8

57	Does COVID-19 lockdowns have impacted on global dengue burden? A special focus to India	Sharma, H.   Ilyas, A.   Chowdhury, A.   Poddar, N.K.   Chaudhary, A.A.   Shilbayeh, S.A.R.   Ibrahim, A.A.   Khan, S.	2022	BMC Public Health	SDG 3
58	A secure and energy efficient key agreement framework for vehicle-grid system	Khan, A.A.   Kumar, V.   Ahmad, M.   Jangirala, S.	2022	Journal of Information Security and Applications	SDG 7
